How to buy Linen sheets Australia

[Make sure that your fitted sheet will fit and match your mattress it looks great.](#) Sometimes a sheet might be a little more affordable by reducing the depth of actually fitted sheet. A small difference of 30-35 cm means that your bed sheet will not fit the standard Australian sized mattress.

Always check of asking the way the sheets are made. Can you simply check the quality of elastic is used? Is it fits around the sheet and not just the corners?

Check the fiber content first Linen is always excellent because it is soft and adorable. Reading the content you will know the fabric of the sheet.

Thread Count

The thread count between 300 to 500 is a sweet spot for softness and strength. However, you will find good 200-thread count sheets, but they are less comfortable and anything over 500 is not necessarily better.

To Look for the finish

Sheets are treated with chemicals to ensure that they won't wrinkle. Touch the fabric of the sheet to ensure that it is wrinkle free.

Check the size

The linen sheets are available in queen, king sizes as per the mattress depth. So make sure to measure the mattress topper in order to make sure before you buy sheets. Generally, fitted sheets fit up to 15-inch mattress have performed well.

Check the return policy

It is not easy to review a sheet without using it. So you must check the return policy in the future, you may need to exchange or return the sheet. No doubt pure linen, bed sheets are worth the investment. Especially when you know the
